The gross receipts of the euchre given at the Eagles' hall last Friday night by the Catholic ladies of the and had been in poor health for fifcity, for the benefit of the poor, were teen years. \$110, as was learned Monday Light, when the latest returns were submit-

The total expense incident to the function were \$4.20, making the net receipts \$105.80-a truly clever sum for a truly worthy object.

The ladies who had the matter in charge began their labors in behalf of the poor several weeks ago and solicited subscriptions of cash, groceries, clothing, fuel, etc., from their friends and acquaintances, and met with a most liberal response.

While the Catholic ladies originated the movement, they solicited from Notice Said Not to Have Been Propand and had the assistance of many non-Catholics, the latter doing everything possible to assist in making the undertaking a success.

The donations were stored in the basement at the home of Mrs. S. J. Lovitt, Third and Kentucky streets, cption election will be contested. This and the principals and teachers of the several schools were asked to send to the Lovitt home such children as were in need of clothing, shoes, etc., and whose parents were in need of provisions or fuel.

That there are many of this unfortunate class in Sedalia may be known when it is stated that in excess of two hundred men, women and children were assisted with either clothing, shoes, provisions or clothing, and in cases where suitable it is also charged that there were ilarticles were not on hand for the little ones new garments were purchased for them.

Woman Pleads Repetition of Alleged Hartje Methods in Drugging at Summer Garden and Hotel Incident Recently.

Chicago, Feb. 11.-In a defense to the charges in her husband's bill for divorce, Mrs. Anna Scott, wife of Merritt C.Scott, a wealthy contractor, yesterday accused the latter of attempting to destroy her good name by resorting to methods charged to have been used in the famous Hartje case in Pittsburg.

Scott asked a decree on the statutory grounds. He named Thomas Murray. Mrs. Scott declares Scott introduced her to Murray at Riverview park, a summer garden, and induced her to drink a glass of beer.

She lost consciousness and when she revived she found herself in a hotel in Murrav's company. Her husband and a witness entered the room while she was unconscious, she avers, and obtained the evidence that is to be used in the suit. Mrs. Scott says she next found her-

self on the street, being dragged by the arm of Murray. She asked, "What am I doing with you?" she asserts, still semi-conscious.

### WHY DID HE WAIT?

One wonders why it is necessary to ask the mayor te enforce the anti spitting ordinance that has been in force during the entire term of his honor. And also what faith can be placed in a promise for enforcement when that same promise was made when the mayor took upon himself the oath of office. If he did not and would not enforce the law under his solemn oath, how can we expect him to do so upon his mere promise? In other words, why hasn't he done his duty all the time and not waited un til a committee of women was forced to call upon him and ask him to

### A GENERAL CLEANING DAY.

The following news item from the San Antonio Express of Feb. 6 indi cates how popular a general cleaning day for cities is becoming. As will be seen, the Woman's club of San Antonio has adopted the plan and is going to make it a success.

Sorosis, of Sedalia, has the same idea under consideration, and it is to be hoped that they will follow the good example set by the club women of the Texas city: The Express says:

The Women's club at its regular meeting yesterday afternoon decidea upon March 10 as a general cleaning-up day for San Antonio. Many organizations have pledged their as sistance to the club in making the day a success, while others will be adjured to lend their assistance. It is proposed to give the city such a sanitary treat as it has never experi-

The civic department of the club has been working for the past ten days or two weeks soliciting the assistance of different organizations in the city. Among those who have pledged their assistance is the Busi ness Men's club, the city administration, the city board of health, the Health Protective association and the school board. The school board last night voted to permit the civic department of the club to distribute circulars among the schoolchildren outlining the plan of campaign and asking for the aid of both parents and children in cleaning up.

The club decided on March 10 as the time for the cleaning-up cam paign, as other cities of the state have set this day, and it was said last night by the chairman of the civic committee of the club that an effort will be made to have this date set aside both locally and over the state as a day for a general cleaning up every year, to the end that the general health of Texas cities will be improved during the hot summer

The civic committee of the club, Signsture appeared before several directors of

the Business Men's club yesterday and solicited the aid of that organization. President C. B. Names that are weird; names that are wild; names that are hilarious and names that break the teeth-all these can be found listed with the minors, and each year brings funnier additions.

There are a few absurd names in the National league and along Ban Johnson's circuit, but not many. Somehow or other, the minor leagues seem to have the comical sounding chaps nearly all for their own. Some of these names are due, of course, to the rapid manner in which our immigrants are taking up the great American game.

A few years ago ball players had Custom Shirts either Irish or old English-American names, with an occasional German. Today, there are names from thirty nations, and the racial variety grows Ort, Litschi, Wormwood, Barberish Dam and Frock, for example. Wormwood was quite a pitcher-bitter sort of a cuss, no doubt. Frock, it is thought, will wear well. The Boston club will probably scratch Barberich before the season is far advanced. Dam was doubtless a profane fellow and had much trouble with the umps.

The Connecticut league comes to bat with Bunyan, Grubb, Stankard, Paster, Jone, Shincel, Karch, Thackara, Rufrange and Bellerose. Bunyan hit only .226, so his progress was strongest at meal times.

Down in the magnolias of the Southern league were Lister, Meek, Plass, Bills, Suggs Bowcock, Alcock, Schopp and Spade. The last named Solbroa, Rognes, Sincock, Oriet and gentleman was a wonder at digging up low balls. Meek was a quarrelsome lad and Lister did not invent the medicine that bears his name.

The Western league has more Zs on the tab than any of the others. It boasted Zachert, Zinran and Zalus

### MANY PLEAS BASED ON SENTIMENT

You Are Asking Us to Recommend Unconstitutional Laws," Judge Jenkins Tells the Rev. Mr. Nicholson With Emphasis.

Washington, Feb. 11.-The feature of the hearing of the Anti-Saloon league's representatives before the house judiciary committee was the remarks of Judge John J. Jenkins, chairman of the committee, to the Rev. S. L. Nicholson, who spoke for the American Anti-Saloon league.

The rks were made at the conclusion of an argument by Mr Nicholson urging the adoption of the Littlefield, or some other similar bill prohibiting the shipping of liquor into prohibition territory.

Chairman Jenkins said that 90 per cent of the bills of the kind under discussion brought before his committee were aimed at the very threat of the government. Men full of sentiment would appear there, he declared, and urge the committee to report a bill and ask congress to pass a law to be tested before the supreme

"I have been in prohibition territory and seen how the laws were evaded. There I saw men with a prayer book in one hand and a knife for an enemy in another.

Mr. Nicholson explained that it was not his intention to ask the committee to do anything wrong.

Judge Jenkins said that politics had nothing to do with the work of the judiciary committee, but that there was a diversity of opinion as to whether the various liquor bills were constitutional or not.

Washington, Feb. 11.-Senator For aker, of Ohio, took the floor in the senate last afternoon on a "question of personal privilege," and answered the statements made in the letter of President Roosevelt to William Dudley Foulke, of Indiana, with refer-

ence to federal appointments in Ohio Mr. Foraker opened his remarks by saying that on January 14, 1908, the senate, in executive session, at the instance of the two senators from Ohio, refused to confirm certain postmasters' appointments which had

"Urged by our friends of the press as to the reasons why we had taken such action," said Mr. Foraker, "I made a statement in about these words: 'The action taken meant that there would not be in Ohio any forther prostitution of paironage for political purposes without being re-

WOOD' OPERA HOUSE.

The Great Baker opened a week's engagement last evening at Wood's heater to a fair audience.

Prof. Baker's lecture was brief and to the point. The call for volunteers from the audience was readily responded to and the hypnotic stunts der the influence of Mme. Tangley and Mr. Baker were very amusing and kept the audience in an uproar

of laughter from start to finish. One of the most interesting and convincing task performed last evening was the breaking of a huge rock, weighing about 350 pounds, while lyng upon the breast of a cataleptic subject while suspended upon the

backs of two chairs. A gentleman from the audience struck the rock with a 14-pound sledge hammer until he. broke the same. The test was a very convincing one. Tonight the professor will produce the famous electrical test of having a subject grasp two ordinary electric carbons with hi pare hands in which two hundred Miss Grace Hayward, at the Sedalia c'ts of alternating current is passing.

The greatest of all last season's doubtedly that of "A Dangerous Friend." So far this season it has been repeating its last year's success. The theaters are crowded nightly and the box office receipts again prove the wonderful drawing powers of this great dramatic play. There is something so sensational and vet realistic about the play that one is held half spellbound from the rise until the fall of the curtain. It would require too ruch space to tell of all the good things in "A Dangerous Friend." The play is in five acts and the dialogue is bright, witty and full of comedy and every actor has been especially

MR. LLOYD ELECTED CHAIRMAN DEMOCRATIC CONGRESSION-AL COMMITTEE.

### DESPITE OPPOSITION OF WILLIAMS

The Missourian Had 23 Votes to 14 Cast for William H. Ryan, of Nevi York-Choice Was Made Unanimoue.

Washington, Feb. 11.-Opposition of John Sharp Williams, minority leader in the house of representatives, together with two of the candidates against him combining their strength in favor of a third candidate, failed to defeat Representative James T. Lloyd, of Missouri, for chairmanship of the democratic congressional campaign committee

Mr. Lloyd was elected by a vote of 23 to 14, the opposing votes being cast for William H. Ryan, of New York. Mr. Ryan was the candidate for whom Representative. Flood, of Virginia, and Bowers, of Mississipp!, withdrew from the race and to whom they attempted to throw their strength.

The committee was in session for three hours in the minority room at the capitol last night. Thirty-seven of the membership of thirty fight were

represented in person or by proxy. At the conclusion of the meeting, Mr. Lloyd who retired from the room when the vote was taken, received an ovation.

Representative Fitzgerald, of New York, who placed Ryan in nomination, and who, with Leader Williams, has been most active for the New Yorker, made a motion to make the election unanimous, which was done with a cheer.

The nominating speech for Lloyd was made by Representative Champ Clark and seconded by Stone and Representatives Kitchen, Gaines and Rainey.

Ryan was placed in nomination by Fitzgerald, the seconds being made by Representatives Williams, Ans erry and Hughes. Until within the last few days Mr Lloyd and his friends were confident

that he would be elected, but that confidence was shaken by the fact that Williams took charge of campaign against him, and made per sonal appeals to members who were considered doubtful.

Williams, though not a member of the committee, was present last ev ening to address the meeting against Lloyd, having obtained the proxy of

Senator Teller, of Colorado. The opposition was caused by Mr. Wednesday night. Lloyd remaining loyal to Mr. De Armond, his colleague from Missouri, until the latter withdrew from The Democrat-Sentinel is authorized the race for the minority leadership, just before congress convened. Speak

Unusual Linen Values

As a special feature of our WHITE WEAR SALE WEDNESDAY We will offer the following table damask at prices very much under value. And right here let us say that the market price of linen today is higher than in over half a century There has been no declne in the price, instead the cost of the raw flax has greatly advanced, and that is why we call these unusual values-they are such because conditions make them so.

Orange, N. J., Feb. 11.-Thomas. Alva Edison, the wizard of the age of electricity, today observed his 61st eirthday. Although he has achieved financial independence through his hundreds of inventions, the aged wizard is still busily engaged on many projects which will be of the greatest benefit to humanity. Of late he has spent a considerable portion of his time in concrete as a house-building material and has perfected machinery whereby such houses may be molded quickly and in an economical manner. Several other ideas are revolving in the fertile brain of the wizard and if his life is spared for another decade it is likely that he will again startle igan, Minnesota, North Dakota, South irg of the government's suit against the world with some revolutionary product of his genius.

By CYRUS TOWNSEND BRADY

In this story Dr. Brady introduces to his readers an American girl of the revolutionary period who has become the wife of an English naval officer. The marriage is a happy one until the wife is introduced to English society into which she does not fit, and a serious quarrel and separation follows her first house-party, and My Lord finds he must "a courting go" a second time to win back the affections of his wife.

In the story is another demure American maiden to whom love is appealing for the first time, and who follows the fortunes of her friend and countrywoman very much against her wishes.

No story by Dr. Brady would be considered complete did the ocean not enter into it, and in this one his heroine is a daughter of an American sailor and merchantman, and she takes to the water fearlessly when attempting to escape from her marriage bonds.

You will be interested in the clever tale. and in the way in which King George takes a part in again bringing together the estranged couple.

There is a subtle humor and appealing pathos woven together in the rapid action of the story, in the whole of which there is not a single dull line. We will present it to our readers in the near future with the conviction that it will appeal to each and every one of them.

# JUNUI ULA INHERITANCE OF DISEASE AND SUFFERING

No truth is more forcibly manifested in physical life than the old saying "like begets like;" for just as the offspring of healthy ancestry are blessed with pure, rich blood, insuring health and strength, so the children of blood tainted parentage inherit a polluted circulation to burden their existence with disease and suffering. Swollen glands about the neck, brittle bones, weak eyes, pale, waxy complexions, running sores and ulcers and general poor health, are the usual ways in which Scrofula is manifested. In some cases the blood is so filled with the scrofulous germs and tubercular matter that from birth life is made miserable with suffering. Others who inherit the disease succeed in holding the trouble in check during young, vigorous life, but when the system has begun to weaken and lose its natural vitality, and especially after a spell of sickness, the ravages of the disease will commence, and in a great many cases terminate in Consumption. S. S. is the very best treatment for Scrofula. It renovates the entire circulation and

PURELY VEGETABLE

drives out the scrofulous and tubercular deposits. S. S. S. is the greatest of all blood purifiers, and it not only goes to the very bottom of the trouble and removes the cause and cures the disease, but it supplies the weak, anaemic blood with the healthful properties it is in need of. S. S. S. is made

entirely of healing, cleansing roots, herbs and barks, and is an absolutely safe remedy for young or old. Book on the blood and any medical advice about Scrofula given free of charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Nitrates from Air. If the claim of Norwegian manufacturers can be substantiated, a process has been invented for procuring nitrate from the air, or rather for obtaining the nitrogen for conversion into nitrate-which is declared to be more sure, efficient, reliable and cheap than the employment of bacteria in the soil for the same purpose. Manufacturing establishments have already been built and are in operation in Norway, which promise to produce nitrate in such quantities and at such prices as to materially affect the market.
